

High 5 Winner

Sharon Fenderson recently claimed her High 5 Award after being voted by readers of Take 5 as "Best Pet Sitter." Fenderson is owner of Peace of Mind, an in-home pet care service.

An artist rendering shows some of the enhancements along Avenue of the Fountains

Avenue continued from page 18

Avenue in front of Town Hall. Once complete, the construction will continue on the north side of the Avenue, starting at La Montana and heading east towards Saguaro Boulevard.

Phase I will improve the north side of Avenue of the Fountains from La Montana to Saguaro and in front of Town Hall.

The 120-day project will include expanding and accentuating the planters by adding more vegetation and up-lights on the palms, staining the sidewalks and sandblasting a design into the concrete, adding a complete

lighting package with street lights and double-sided banners, installation of two large shade structures at each mid-block location with ample seating under them, and installation of benches, trash receptacles, and bike racks along the length of the Avenue.

"Businesses will be open during the construction period,

so residents and visitors are encouraged to come downtown and visit their favorite stores and restaurants to see this exciting transformation," said Mayor Nichols.

For regular construction updates, a project fact sheet, and details about the project, please click the link on the home page of the Town's Web site at www.fh.az.gov.
